INDUSTRIAL BIOTECHNOLOGY: PROBLEMS AND REMEDIES

I.K. International Publishing House Pvt. Ltd., 2006. Paperback. Book Condition: New. 16cm x 24cm. The last five decades have witnessed a tremendous upsurge in the amount of xenobiotic compounds in the environment by industrial activities, some of them being highly toxic, recalcitrant with high bio-accumulating and bio-magnification properties. Whilst biotechnology is the development of products or processes using plants, animals or micro-organisms, "Environmental Biotechnology" is the multidisciplinary integration of sciences and engineering to utilise the huge biochemical potential of microorganisms and...
