Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Easy German Composition With an Abstract of German Grammar This book is intended to give a complete review of all important German forms and constructions, in connection with practice in writing simple prose and the systematic building up of a good vocabulary. It is suited for use in schools in the second or third year of the study of German, and in colleges in the second year. The first part consists of exercises, each of which is a connected piece of prose based on a German model and illustrating a particular point of grammar. Each treats, in the form of simple narrative, conversation or letter, some phase of daily life, the whole series affording a carefully selected and logically developed vocabulary of practical, every-day German. The book can be used equally well in teaching either by the old or the new method. Teachers who prefer to have no translation made from English into German can attain the same results by a careful study of the German model exercises with the help of the questions and by exercises in Freie Reproduktion, suggestions for which may be found in Part II. These may, of course, be endlessly varied and added to by the teacher, who will find in Parts III and IV further valuable material for reproduction. On the other hand, those who desire more material for translation, will find in Part V longer connected prose passages based on the vocabulary of the exercises.
