Maximum Entropy, Information Without Probability and Complex Fractals

Filesize: 9.45 MB

Reviews

It is simple in study safer to understand. It can be full of knowledge and wisdom Your way of life span is going to be enhance when you full looking at this book.

(Lavina Torp)

MAXIMUM ENTROPY, INFORMATION WITHOUT PROBABILITY AND COMPLEX FRACTALS

To download Maximum Entropy, Information Without Probability and Complex Fractals PDF, please access the hyperlink below and save the file or gain access to additional information which might be relevant to MAXIMUM ENTROPY, INFORMATION WITHOUT PROBABILITY AND COMPLEX FRACTALS ebook.

Book Condition: New. Publisher/Verlag: Springer Netherlands | Classical and Quantum Approach | Every thought is a throw of dice. Stephane Mallarme This book is the last one of a trilogy which reports a part of our research work over nearly thirty years (we discard our non-conventional results in automatic control theory and applications on the one hand, and fuzzy sets on the other), and its main key words are Information Theory, Entropy, Maximum Entropy Principle, Linguistics, Thermodynamics, Quantum Mechanics, Fractals, Fractional Brownian Motion, Stochastic Differential Equations of Order n, Stochastic Optimal Control, Computer Vision. Our obsession has been always the same: Shannon's information theory should play a basic role in the foundations of sciences, but subject to the condition that it be suitably generalized to allow us to deal with problems which are not necessarily related to communication engineering. With this objective in mind, two questions are of utmost importance: (i) How can we introduce meaning or significance of information in Shannon's information theory? (ii) How can we define and/or measure the amount of information involved in a form or a pattern without using a probabilistic scheme? It is obligatory to find suitable answers to these problems if we want to apply Shannon's theory to science with some chance of success. For instance, its use in biology has been very disappointing, for the very reason that the meaning of information is there of basic importance, and is not involved in this approach. | Preface. 1. Introduction. 2. Summary of Information Theory. 3. Path Entropies of Non Random Functions. 4. Path Entropies of Random Functions and of Non-Random Distributed Functions. 5. Quantum Entropies of Non-Probabilistic Square Matrices. 6. Complex-Valued Fractional Brownian Motion of Order n Part I. 7. Complex-Valued Fractional Brownian Motion of Order n. Part II. 8. Information Thermodynamics and...
